How It Works

You pick a package and bring your people. We handle the rest.

Decor, customized digital screens, balloons, confetti, candles, setup and cleanup. We create a digital invite and send from Skyline to track RSVPs and keep communication simple. Packages are priced per person for up to a four-hour window. A dedicated bartender runs the show. Stools can be removed so the room feels like a private party. Small dance floor if desired.

Ride a private elevator to your own party in the sky with Skyline Social Birthday Bar.
